Psychiatrist Finds Mrs. Duncan Sane

VENTURA, Calif. (UPI)—Convicted murderess Elizabeth Duncan has a "psychopathic personality," but a court-appointed psychiatrist said yesterday he believed her legally sane.

Dr. Louis R. Nash, of Camarillo State Hospital, said he examined Mrs. Duncan after she was accused of hiring two men to kill her Canadian-born expectant daughter-in-law. He said she had a "psychopathic personality," used poor judgment and was a "pathological liar."

But when Prosecutor Roy Gustafson asked if Mrs. Duncan was sane or insane, he said:

"My findings are that she is not insane."

He testified at the hearing on whether she is sentenced to death or life imprisonment for ordering the death of Olga Duncan.
